

ABOUT ME

Hi, I'm Erbil. I'm 22 years old. I'll graduated from Computer Science & Engineering at Sakarya University in September 2019. In order to carry my professional career and personal development further, I am looking for a company that I can take a job or long-term internship.

MY EDUCATIONAL LIFE

Computer Engineering (BD) <i>Sakarya University</i>	2015 - 2019
Student <i>Florya Tevfik Ercan High School</i>	2011 - 2015

LANGUAGE KNOWLEDGE

English (B2: Upper-Intermediate)
German (A2: Elementary)

PROGRAMMING KNOWLEDGE

For web applications:

HTML/CSS,
JavaScript (jQuery/AJAX/Node.js/Vue.js),
PHP (PDO),
ASP.NET (MVC/Core)

For database operations:

SQL (MySQL, MS SQL Server, MongoDB,
PostgreSQL, Firebase)

For game programming:

C# (Unity),
Python (Ren'Py)

For mobile application programming:

Java (Android Studio)

For other applications:

Worked on before with C/C++, C# (.NET), Java,
Python, Assembly
At beginner level with Kotlin and Ruby

Package programs that I used: MS Office, Visual Studio/VS Code, Git, NetBeans, Keil µVision (C51), Cisco Packet Tracer, WordPress, MATLAB, Mikrodev Mikrodigram/ViewPLUS SCADA, Arduino Software (IDE), Android Studio, MIT AppInventor, Firebase, Adafruit, Anaconda (Spyder/Jupyter Notebook), MongoDB, DialogFlow, Vue CLI

Operating systems that I used: Windows, Windows Server, Linux (Ubuntu, Debian, CentOS, Kali, Mint, elementary), Android

PERSONAL SKILLS

Critical thinking, time management and problem-solving
Teamwork predisposition and effective communication
High research skills, information and digital literacy

MY WORK EXPERIENCE

Junior Web Application Developer

Yuxek Internet Technologies

JUN 2019 – AUG 2019

Description: Yuxek Internet Technologies is a company that develops web applications in Sakarya. During my time here, I worked on Vue.js, a new and popular JavaScript framework to help with their projects. At Yuxek, where I also completed my compulsory internship, I prepared an exemplary internship project. (<https://tinyurl.com/yx8tjokl>)

Intern

Mikrodev IT Software and Electronics Industry Co. Ltd

AUG 2018 – SEP 2018

Description: I did my hardware-oriented internship at Mikrodev that working with SCADA and PLC products. Using Mikrodev's own developed Microdia structure, I developed basic level elevator, bus and digital clock automation software. (<https://tinyurl.com/yyr76qj5>)

Frontend Web Developer & UI/UX Designer

Freelance Web Application Development

DEC 2017 – JUL 2018

Description: Me and my workmate have contracted to develop two web applications from different customers. The first one was for the fertilizer growers' cooperative, and the second one was for organization of Darica Marti Spor. (1: <https://tinyurl.com/y39g993x> | 2: <https://tinyurl.com/yybm4skr>)

Intern

OTOKAR Automotive and Defense Industry

JUL 2017 – AUG 2017

MY PROJECTS & VOLUNTEER WORKS

Crossing of the Rhine: A.D. 406

Graduation Project of Computer Engineering

OCT 2018 – MAY 2019

Description: The finishing work I did with my three classmates was on game programming. The purpose of our project, in which the story is at the center of the game and the players can change the course and the end of the game according to their decisions, was to examine how this game design will affect the video games in the future and in what styles it can be shaped. (Review the game: <https://team-horse-oclock.itch.io/ad406>)

Leader of Information Technologies and Social Media Commission

Sakarya University Industrial Engineering Club

MAY 2017 – MAY 2018

Description: As a result of my one-year active membership in the club, I was brought into leadership of the club's technical systems and social media team together with the other two partners by Sakarya University Industrial Engineering Club. I and my partners have developed a website and an Android app for the club, with an executive panel and event ticketing system during our one-year management. (Website: <https://www.sauemk.com> | Android app: <https://play.google.com/store/apps/details?id=sauemk.horseoclock.sauemkmobilapp>)

Active Membership of Education Commission

Sakarya University Industrial Engineering Club

SEP 2016 – MAY 2017

Active Membership of Computer and Information Community

IEEE Student Branch of Sakarya University

MAR 2016 – NOV 2017
